The 5th Grade Girl Scout Troop at Hunnewell challenges the community to a plastic water bottle free weekend, April 27-29, 2018.

This weekend is chosen in honor of Earth Day, a celebration of nature. They ask you to plan ahead and bring a reusable water bottle to school, sports and activities.

[Click to watch their amazing video!](#)

This video will encourage you to sign their pledge and adhere to do your best to ditch disposable water bottles and go reusable instead. Some suggestions they offer to make the change include:

Be prepared

Try to remember to keep your reusable water bottle filled and ready to go for school, practice, rehearsal, on car trips, walks etc.

Doing so will allow you to take action to help the earth, keep our environment cleaner, and to save money.

They encourage you to lead by example and spread awareness so others will choose to go reusable too!

If you can do it for a weekend, you will see how easy it is to make the change forever.

Give it a try.

Thanks for the inspiration Hunnewell Troop 78199!
